EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Colin Cini on 6/22/06.

The application has been amended as follows:

CLAIMS

- Claims 3-5, 11, 12, 14, 18, 20 and 21 have been canceled.
- Claim 1, line 4 after "turbine section" – having a longitudinal axis – has been inserted.
- Claim 1, 3rd line from the end, after "surface" – along a radial direction – has been inserted.
- Claim 8, line 6 after "turbine section" – having a longitudinal axis – has been inserted.
- Claim 8, 3rd line from the end (not counting the deleted text), after "surface" – along a radial direction – has been inserted.
- Claim 16, line 8 after "engine" – having a longitudinal axis – has been inserted.
- Claim 16, last line, after "surface" – along a radial direction – has been inserted.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: the prior art of record do not fairly teach the claims as amended above where the arcuate surface is curved along a radial direction, radial being understood as being relative to the longitudinal axis. The Sollinger reference is the closest reference that has an arcuate surface 24 but that surface would be curved along the longitudinal direction and not along the radial direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
